Offshore Energy Support Vessel 10020

» Features Damen's DPX-DRIVE

GENERAL

Basic functions	The Vessel serves to provide offshore energy support, stepless access to offshore structures for technicals and cargo, offshore supply, perform offshore and subsea lifting operations, hotel functions and is capable of carrying ROV systems, dive systems and cable repair spreads.
Classification	Det Norske Veritas (DNV) DNV 1A1, Offshore Service Vessel Strengthened(DK), E0, Battery(Power), DYNPOS(AUTR-CBT, AUTR-CBS), WALK-2-WORK, CRANE, COMF(V-2, C-2), ER(SCR), Clean (Tier III), BIS, Fuel ready(LFL, Tc, P, MEc), LCS, Cyber secure(Essential), Recyclable

DIMENSIONS

Length overall	102	m
Beam overall	20.2	m
Depth at side moulded	8.2	m
Summer draught	5.4	m
Design draught	5	m

CAPACITIES

Deadweight (at summer draught)	2200	t
Cargo deck area	750	m ²
Covered warehouse area	500	m ²
Persons on board	190	POB
Cabins	111	#

TANK CAPACITIES

Fuel oil (incl. day tanks, incl cargo)	465	m ³
Fresh water (incl. cargo)	475	m ³
Tanks prepared for methanol	470	m ³
Fresh ballast water	1000	m ³
Passive Anti Roll tanks	325	m ³

PERFORMANCES

Trial speed (at design draught)	12	kn
Economical speed (at design draught)	10	kn
Dynamic Positioning capability	(8, 6, 6, 7)	DNV ST-0111 L1

POWER AND PROPULSION SYSTEM

Power generation	Hybrid diesel-electric power generation
Main diesel generator	3x 2150 kW at 1200 rpm, methanol-ready
Battery system	2x 1000 kWh, 2000 kW
Shore power	1x 800 kW
Propulsion system	Damen DPX Drive set-up, four thrusters in double - end arrangement, with the following advantages: • Optimal manoeuvring • Small DP footprint • Low fuel consumption • Low inboard noise levels Enhanced maintenance 4x 2200 kW azimuth thrusters
Thrusters	

LOW-CARBON SOLUTIONS

The vessel is prepared for future conversion to methanol as a fuel. The preparations include all steel construction of tanks, cofferdams, fuel treatment rooms and pipe trunks. The selected diesel generators can be converted for methanol-fuel in a later stage. The prepared tank capacity is sufficient for 2-3 weeks normal operation on full methanol. In addition, space reservation is provided for future installation of larger batteries, hydrogen equipment or other, yet unknown, equipment.

MISSION EQUIPMENT

Motion compensated Gangway	3D MCG 30m length, mounted on a tower with integrated elevator. Height adjustable to a working height of 13m to 30m above sea level.
Offshore AHC crane	Active heave compensated offshore crane, SWL 150t in harbour 2-fall, SWL 100t @ 9.5m offshore, up to 800m working depth.
Helicopter winch area	Integrated helicopter winch area on foreship Option: helideck D-size 21m
Boat landing facilities	Steel boat landing at stem with height-adjustable platform and walkway, adjustable between 1m and 4m above sea level, without the need for fall arrestors.
Refuelling stations	Boat landing is provided with refuelling station for fuel and urea. MCG is provided with utility lines to supply fresh water, fuel and electric power to offshore structures
Fuel oil transfer pump	1x 150 m ³ /hr pump
Fresh water transfer pump	1x 150 m ³ /hr pump

ACCOMMODATION

Comfort	The vessel provides hotel-style accommodation with high comfort levels due to a.o. low vessel motions, low noise levels, high-standard climate control, state-of-the art internet and entertainment systems and well-designed way-finding systems.
Cabins	The vessel is fitted with 32x single cabins and 79x single cabins
Offices	In total there are five large offices and or conference rooms
Leisure	Feel at home, away from home. Attractive, inviting mess and lounge, large gymnasium, game rooms, cinema.

NAUTICAL AND COMMUNICATION EQUIPMENT

DP-system	DP-2 with target-less Laser PRU and 2x DGPS PRU. High-speed auto track capability
Motion prediction	Wave radar with motion prediction capability, for improved safety and operability during offshore transfer operations
Communication	VSAT, 5G, TVRO, prepared for LEO

OPTIONS

Helideck	D-factor 21 m, max. take-off weight 12.8 t, day- and night landings.
Auxiliary generator	An auxiliary generator can be fitted in a separate room, approx. power 800 kW
External fire fighting	According Fifi 1 notation
Daughter craft	12m service boat, including davit.
Offshore crane 3D knuckle	The offshore crane can be outfitted with a 3D motion compensated knuckle
